The 3<sup>rd</sup> column shows the number of times the web addresses occur in Article space.

The 4<sup>th</sup> column shows the number of pages (again in Article space) that contain the web address.

The 5<sup>th</sup> column (included as a sort of cross-check) shows the number of pages containing the web addresses in the various namespaces Google indexes.

\* Currently blocked in Europe, in ~~retaliation~~ for compliance with GDPR. Part of tronc.com. Cf. [Mass firings](#) at the *NY Daily News*.

§ behind a paywall. (ft.com, haaretz.com, thetimes.co.uk, washingtonpost.com)

† officially banned from en.wikipedia.org by decision of roughly 50 Wikipedians.

‡ includes both US and Australia. (huffingtonpost.com.au)
